RE: Shelter Oklahoma Schools Fund

Following the May, 2013 Moore tornadoes, a group of corporate donors led by Apache Corporation and the Norman Chrysler Dodge Jeep dealership sponsored a fund that would be used to support the construction of schools shelters and safe rooms. A total of \$2,125,311 was collected. Guidelines were developed that provided up to \$100,000 per school for new construction/re-fitting of a FEMA approved shelter for school children. These guidelines were distributed statewide. Grants have been awarded to 19 school districts for a total of \$ 2,116,000.

After a school is approved for a grant and the shelter design is determined to meet FEMA standards, 50 percent of the grant amount is forwarded to the school when construction actually begins. When a certificate of occupancy is received from the State Fire Marshall, the balance of the funds is forwarded to the school. The status of the grants is summarized below:

Total Grant awards: 19  
Total amount awarded: \$2,116,000  
Total Payments Made: \$1,966,000  
Partial Grant awards outstanding: \$150,000

Total Shelter Capacity: 10,362  
Total Students Enrollment in these schools: 7,598

There are three uncompleted projects that should be finished by February, 2019. The attached chart provides a list of the grants which were awarded. Most of the awards added funding to current projects that allowed the building additions to be modified into a safe room or a shelter. Several projects will provide shelter for a number of people in addition to the students at the school.
